

Worm/Spur-Gear Series

How to Order

To order a Worm or Spur Gear Hand Winch, select the base model code. Specify the desired options by adding the appropriate letter code(s) shown in the list below in that order. Use a dash “-“ to separate option codes from the base model. If more than one option is desired, add them in the order shown (numeric/alphabetical) separating each with a dash “-“. Refer to the chart below for the price of the option codes to be added to the base model price or, to order separately, specify the part number.

Option Codes (Included in base model price)

P	Indicates W100 and W200 series worm gear winches which may be powered intermittently, (motor not supplied)
B	Indicates band style lowering brake on AM and BM series Spur-Gear models only
W	Indicates a Hand Wheel rather than hand crank is supplied on LM, HM, R and BW series winches

Option Codes (To be added to base model price)

20, 35 or 60	Wider drums available on R and BW series.
GC	By specifying GC after the base model code on all models (standard on W100, W200 models) a Gear Cover will be factory installed. See below for ordering separately.
M	By specifying M after the base model code, two coats of Marine 812 top coat will be applied. Available on all models.
RD	By specifying RD after the base model code on LM and HM series, a Reverse Dog Assembly will be factory installed only.
SBH	By specifying SBH after the base model code on all Spur-Gear models, a disc brake handle will be factory installed. See below for ordering separately. Also see note below (P.O.A.).
SD	By specifying SD after the base model code, a drum divider flange will be provided.

Examples:

W10-GC	W10 series worm gear winch with factory installed gear cover
AM3B-GC	AM3 series spur-gear winch with band style lowering brake and factory installed gear cover.
LM6W-GC-M	LM6 series spur-gear winch with hand wheel, factory installed gear cover and Marine 812 top coat.
R14W-35-M	R14 series winch with hand wheel, 35in. flange width drum and Marine 812 finish.

Option Description	Used on Series	Part NO. P/N	Description Power Drive Pinions Accessory	Used on Series	Part No. (P/N)	
Extended Drums (10 and 15 ton)	R10, BW10	20"	Drill Chuck Adapter	W100-3P,	1287	
	R10, BW10	35"		W100-6P		
	R10, BW10	60"		W200-5P		
	R14, BW14	20"		LM		
	R14, BW14	35"		HM, R, BW		
	R14, BW14	60"		LM		
GC = Gear Cover Standard on R and BW models	W2, W5	6191	Hand Wheel **	HM, R, BWy	3628	
	W10	6192		Angle Deck Bracket (per set)	R14 (W)	293-B
	AM3 (B), AM6 (B)	6189			BW14 (W)	293-B
	BM3 (B), BM6 (B)	6190				
	LM	250-B				
M = Marine 812 Top coat (installed in factory only)	HM	249				
	All Worm Gears					
	AM and BM series					
	LM series					
RD = Reverse Dog Assy*	HM series					
	R and BW series					
SBH = Disc Brake Handle* installed in factory only	LM and HM series					
	AM3 (B), AM6(B)	3893*				
	BM3 (B), BM6 (B)	3893*				
SD = Drum Divider Flange (Complete with second cable anchor)	LM	3679				
	HM, R, BW	3677				
	AM and BM series					
	LM and HM series					
	R and BW series					

* Not available for field installation.
 ** Cannot be retrofitted on hand crank models.
 y Handwheel for units with “SBH”

Note: The disc brake handle holds loads in any position and permits raising and lowering. The load is automatically held when cranking stops.
